

Athletics Recreation Yearbook 80-81

President's Message

For the first time in the over one-hundred-year tradition of this educational institution, we are able to provide at Mount Saint Vincent University, athletics and recreational facilities that truly meet the needs, not only of our students, but of our faculty, staff, and surrounding community neighbours. In opening our new Rosaria Centre, we are providing the facilities necessary to develop real physical fitness and recreational interests.

The goal of Mount Saint Vincent University is to graduate students who are sound in mind, body, and spirit. Athletics and recreation are as much a necessity in the development of a whole person as intellectual, moral, and ethical training; for the conduct of persons in their sports and social lives is a very real test of character. At the Mount we hope to provide the leadership which encourages all to participate, since it is involvement that matters, not winning. Competitive sports certainly have a place, but much more important than playing for the sake of winning, is playing for the sake of well-being.

Mount Saint Vincent University, then, attempts to provide a variety of opportunities to develop health and physical fitness in line with emotional stability, intellectual alertness, and professional training. It is my hope that every student at the Mount can get into the true spirit of holistic living.

E. Margaret Fulton,
President

1980-81 — A Success

The goals of Athletics at Mount Saint Vincent University are to provide the opportunity for students to compete, to make new acquaintances, to develop their various proficiencies in sports and to experience the unique satisfaction of achievement through team play. When these goals are met, they cause a favorable improvement in campus spirit and lifestyle as well as the health and fitness of the actual competitors. This past year was a success.

The women's volleyball and field hockey teams were conference champions and all-star players were selected from each team. Mount Saint Vincent was admitted into the Nova Scotia College Conference league. New sports to the Mount were introduced, the most successful of which were the women's soccer and men's ice hockey teams. We experienced an increase in participation and interest in virtually all areas of activity.

These and other achievements were preceded by the sincere interest and hard work of all concerned, be they players, managers or coaches. This has left us with a solid base on which to build future programs. Thank you all.

Next year we are hoping to gain admittance to the Canadian Colleges Athletic Association and with the use of Rosaria Centre for the full academic term, we expect to have a "banner year". Let's look forward to it!

The Place To Be

The new gymnasium in Rosaria Centre is finally open and within a few short weeks it has become THE place to be in the University. Here one can have a good time, meet new friends, and, at the same time develop a sound and healthy body.

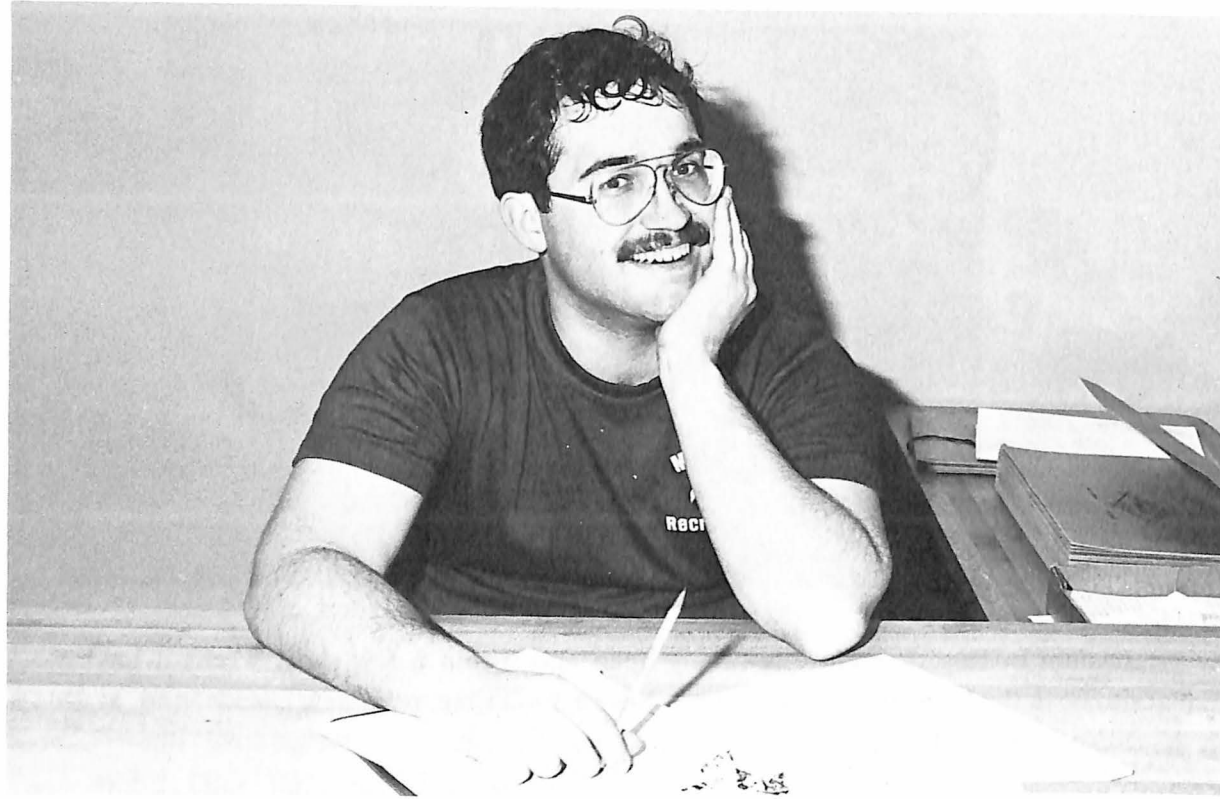

At the Mount, we believe in the participation of everyone in the physical fitness, intramural, and recreation programs. Free time is available in the gym for students, faculty, and staff to enjoy activities of their own choosing. Some recreational programs that are arranged are exercise classes, instructional classes, recreational badminton, and co-ed intramural leagues in several sports, such as, tennis, floor hockey, and volleyball, and basketball, where the competition is friendly but keen.

In this book we have tried to reflect the many activities we have participated in and enjoyed this year. I hope it will provide pleasure to the readers and encourage everyone to take advantage of the program we offer in the future.
